RE: Compliance Sampling & Inspection
NPDES Permit No. DE-0000736
Formal written response

Dear Mr. Davis

This letter serves as Pinnacle Foods Group LLC'S formal written response to required corrective actions for the noted deficiencies during our CSI inspection.

The outfall has been power washed and vacuumed at both the in feed and discharge ends. In addition a U shaped slotted metal box with a removable bolt on lid has been installed at the parking lot end. This container covers the width of the drain and will contain oil absorbing socks and or mats in an effort to prevent any oil from entering the outfall. Documentation and photo's were provided by the specified date.

The employee and contractor SWP/SPCC training has been initiated and will be completed in the required time frame. All requested documentation will be forwarded to you.

The Storm Water Plan will be reviewed and updated. The review log will also be updated and forwarded to the DNREC-Surface Water Discharges Section within the specified time frame.

Should you have any questions please call me at 302-934-3833.

Sincerely,

Robert E. Lynch

Robert E. Lynch
Environmental/Wastewater Supervisor
